

Starting Grants - Adjunkt

First name	Last name	Faculty	Department	Project title	Bevilling
Pantelis	Papadopoulos	AR	Centre for Teaching Development and Digital Media	Innovative and Emerging Technologies in Education	1.880.000
Timo	Leimbach	AR	Department of Aesthetics and Communication	Rethinking project management education	1.725.422
Daena	Funahashi	AR	Department of Culture and Society	Returning Happiness to the People: Politics of Mental Immunity and Vox Populi in the era of Health Driven Governance	237.534
Sebastian	Mohr	AR	Department of Education	Militarizing intimacy: Danish War Veterans Experiences of Nearness	605.000
Ulf Dalvad	Berthelsen	AR	Other please type below	Coding and Creativity	276.000
Matilde Nisbeth	Jensen	BSS	Department of Business Communication	Perspectives on the Status of Contemporary Health Communication Mediations	482.000
Anders Bredahl	Kock	BSS	Department of Economics and Business	High-dimensional econometrics and big data analytics	1.815.000
Kristine	Rømer Thomsen	BSS	Department of Psychology and Behavioural Sciences	Longitudinal study on neural and cognitive risk factors and consequences of substance use in high-risk youth	648.312
Hanne	Møller	HE	Department of Biomedicine	The role of bile acids in regulation of signaling and plasma membrane transporter activity in the large intestine	1.247.953
Frank	de Paoli	HE	Department of Biomedicine	Effects of transient sub-lethal ischemia intervention strategies to evoke remote organ protection and counteract skeletal muscle wasting	1.732.813
Søren	Dinesen Østergaard	HE	Department of Clinical Medicine	Measuring the severity of schizophrenia	1.311.000
Christoffer	Laustsen	HE	Department of Clinical Medicine	Hyperpolarized magnetic resonance sensors for diabetic nephropathy monitoring	1.600.000
Dang	Le	HE	Department of Clinical Medicine	Investigating regenerative effects of novel 3D printed hyaluronic acid scaffolds for multiple organ tissue engineering and matrix drug delivery (short: 3D printed hyaluronic acid scaffolds)	1.583.131
Louise	Hauge Matzen	HE	Department of Dentistry	Diagnosis and treatment of resorption - influence of CBCT on treatment planning and long-term follow up	1.041.267
Rubens	Spin Neto	HE	Institut for Odontologi		1.442.000
Jane Ege	Møller	HE	Other please type below	Perspectives on the Status of Contemporary Health Communication Mediations	

Nina	Lock	ST	Department of Chemistry	Hybrid organic-inorganic materials	1.655.708
Kasper	Green Larsen	ST	Department of Computer Science	Computational Lower Bounds	1.640.000
Gorm Bruun	Andresen	ST	Department of Engineering	Applied Sustainable Energy Systems	1.716.388
Menglin	Chen	ST	Department of Engineering	3D nano-biointerfaces Direct Cell Fate using Innovative Electrospinning Technology	1.426.236
Witold	Kot	ST	Department of Environmental Science	AUFF Assistant Professor Starting Grant for the Phage Biotech Group.	2.000.000
Victor	Silva Aguirre	ST	Department of Physics and Astronomy	Understanding new worlds: characterising exoplanets discovered by TESS	1.662.501
